Course Description

The Diploma in Instrumentation Engineering builds the knowledge and hands-on skills needed to measure, monitor and control industrial processes. Learners study how pressure, temperature, flow and level are sensed, how instruments are calibrated, and how control systems keep plants running safely and efficiently.

Drawing on electrical, electronic, mechanical and computer engineering, the programme covers process instrumentation, microprocessors, power system instrumentation and the fundamentals of automation, along with essential management skills for the workplace.

Graduates are prepared for roles in oil & gas, power, chemical, pharmaceutical and manufacturing industries, where dedicated instrumentation teams are at the heart of every operation.

About Us

Aster Academy is an international business school dedicated to delivering excellence in management & technical education. With a strong online learning ecosystem, we offer short-term, Diploma, Advanced Diploma, Graduate & Post Graduate programs designed for students, entrepreneurs, and working professionals. Our courses are designed by industry experts, aligned with international standards, and focused on practical skills that ensure employability and business growth.

Our Subjects

01 Essentials of Management

02 Electrical Engineering

03 Basic Electronic Engineering

04 Microprocessors

05 Basic Industrial Instrumentation

06 Power System Instrumentation

Exam & Fees

ONLINE EXAM

2 Hours / paper

TOTAL FEES (INDIAN RESIDENTS)

Rs. 29,500*
